Minneapolis, Minn.

Peony Price List

Franklin Nursery

200 West 58th Street

MINNEAPOLIS, MINN.

Fall, 1924—Spring, 1925

In looking over our new list, those familiar with previous lists will note the absence of a number of varieties which we have decided not to propagate further, and in their stead we have added several new varieties which are far superior.

PRICES quoted in this list cancel all previous quotations, either by letter or in printed lists, and are subject to change without notice. A dozen plants of one variety will be furnished at ten times the price of one; six plants will be furnished at dozen rates.

TERMS. Cash with order. Post office money order, express order or bank draft payable to Franklin Nursery will be accepted.

ORDERS should be sent in as early as possible as stock of some of the rarest varieties is limited. All orders accepted subject to stock being unsold when order is received. We make no substitution unless instructed to do so. If stock of variety ordered is exhausted we will return remittance, or apply it on some other variety as customer may direct.

C. O. D. ORDERS must be accompanied by at least one-half of the amount of order in cash.

SHIPMENTS will be forwarded by express or insured Parcel Post as seems most advisable, unless specific instructions are received from purchaser. If desired by Parcel Post add 20c for each root ordered under three, or 15c per root for any over three. Digging and packing will commence the first week in September and continue throughout the fall months. We make no charge for packing retail orders.

COMPLAINTS will receive careful and prompt attention if made promptly upon receipt of goods. If due to any fault of ours, we will willingly rectify same at once. Every care will be exercised to see that goods are properly packed and labeled. If goods are received in damaged condition, see that Express Agent makes proper notation of damage on paid express receipt. This will greatly expedite the collection of claim.

FRANKLIN NURSERY

PLANTING DIRECTIONS will be furnished with each shipment.

SIZE OF ROOT. Owing to an increasing demand that has been created during the past few years for the small, so-called one eye divisions, and to make it possible for our customers and prospective customers to obtain roots of the more expensive and rare varieties at a nominal cost, we have decided to quote prices on 2 eye divisions. Where one is willing to wait until a plant becomes established, it is possible to secure a collection of the finest peonies at a very nominal cost, but where quick results are desired, as is usually the case, strong, healthy divisions of from three to five eyes should be planted.

We have listed the Franklin Seedlings in our descriptive catalogue in the same order as they will be found entered on this price list. We have made no attempt to list the various originators' productions in separate classes, as we feel this only leads to confusion and delay in locating them in the catalogue or price list. We have, however, appended a list of single and Japanese varieties as an aid to ready reference.

As a convenient guide, we have shown the rating as given by the American Peony Society in addition to the originator, a brief color description and the price. Only the prominent or general color combination is shown. See descriptive catalogue for detailed information.

The absence of rating signifies that the variety is of too recent origin to have been voted upon when the symposium vote was arranged for. When a later vote is taken, we look for many of them to rank very high. Our seedlings were all of too recent origin to be voted upon. Many will appear in the next list submitted for vote.

Marguerite Dessert. (Dessert)	Wild Rose. (Pleas)
Pride of Langport. (Kelway)	

We grow a large acreage of peonies and are prepared to
furnish some varieties by the thousand if large plantings
are desired. We issue a trade list to dealers and com-
mercial growers of the varieties we can spare in quantity.

Our price lists are issued annually and if for any reason
you do not receive the same and are interested, a post card
request will bring you a copy of our latest list. As descrip-
tions do not fluctuate like prices, we do not issue a descriptive
catalogue yearly, but only as our supply is exhausted or oc-
casion demands.

In addition to peonies, we grow a large acreage of gladioli
and issue a price list to the trade each season.

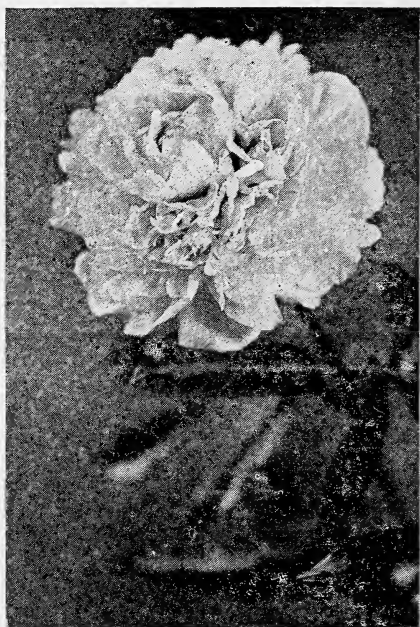

We solicit your patronage and will endeavor to please you
with the stock furnished on your orders. Give us a trial and
be convinced.

All orders and communications should be addressed to us
as follows:
